Dear Mr Rudman

In reply to your letter, please see next letter attached. It is from our Russian law company to Simon Parkes, date 11th of December 2019.

According to verbal agreement with the Rezotone representative Julia, in September 2019

Simon Parkes agreed to start promotion of the Russia USB micro-computer device REZOTONE,

which is excellent protection from 5 G.

He sent to Rezotone company his photo, logo and text which was needed to be added to the REZOTONE company website.

At that time Simon Parkes's, 'Connecting Consciousness' organization had 4.500 members.

Preparation was started by Rezotone production team, money was loaned, parts were purchased and product was produced.

During this time Simon started promotion of the USB Rezotone and it continued around 1.5 months,

On 16th of November Simon Parkes received as a sample, 3 USB from Rezotone company.

His organization has now grown to 12.500 members, because in order to buy USB Rezotone, people needed to join and become CC members.

Suddenly, when our product was ready for the shipment, Simon Parkes broke the agreement and started to promote another device from « bioshield » company. Everything on the website of « bioshield » company was about REZOTONE, they were mimicking and selling totally different USB from China instead. They even used videos with the presentations about REZOTONE, but when people making orders they send to buyers instead another USB from China.

Simon Parkes claimed the Serbian 'Laki' « bioshield » USB key is made out of special natural programmed crystal and are made in limited quantities. [5gbioshield.com](http://5gbioshield.com). Cost

350\$ ... Our clients sent to us comment: "we found that **same exact USB key** they sell on Amazon for \$10. It isn't crystal. It is glass and mass produced in china". REZOTONE company lost profit and investment and start look for other buyers.

Letters were sent to Simon by representative of Russian Rezotone company twice, also letters were sent by UK lawyer Robert, asking Simon send the 3 USB Rezotones back, still up to now, he did not return them and did not pay for them.

Simon Parks still owned to Rezoton **\$1,207.00 and should pay without delays.** <https://5qrezotoneshield.com/shop/>

Rezotone company did gain new buyers and everything was good, until 28th of May, when

article come out about results of being investigated by the London Trading Standards see, <https://www.bbc.co.uk/news/technology-52810220>.

This article follow up with the other articles all over the world and numerous videos, which criticize « bioshield » company,

being a scam, account of the company « bioshield» was frozen. Some of the videos was vied by over 2 million people. DON'T buy this USB

Since both companies selling device as a USB, people confused and REZOTONE company lost buyers and profit since end of May 2020. For the BBC interview SACHA Stone told that

only in one week was sold 6 000 USB, Simon Parkes told in his SHOW that all members already received USB, at those time it was around 10 000 members in his organization, so « bioshield » did gain at least 3.5 million US\$.

We demand that Simon Parkes stop his senseless accusations against the management of Rezotone once and for all, otherwise the documents will be transferred to the Russian court, and the Russian courts will ask for copies of the Bank accounts of «Bioshield» and the offshore company Mahara LTD for further investigation.

We will have to file a lawsuit in court to protect the rights and legitimate interests of Rezotone with a claim for recovery of damages and lost profits from you, Simon Parkes, in accordance with the current legislation of the Russian Federation.

By virtue of article 15 of the Civil code of the Russian Federation, a person whose right is violated may claim full compensation for damages caused to him, if the law or contract does not provide for compensation for damages in a smaller amount.

Losses are defined as expenses that a person whose right has been violated has incurred or will have to incur in order to restore the violated right, loss or damage to his property (actual damage), as well as lost income that this person would have received under normal conditions of civil turnover if his right had not been violated (lost profit).

If the person who violated the right has received income as a result, the person whose right

is violated has the right to claim compensation along with other losses for lost profits in the amount not less than such income.

In addition, your actions cause damage to the business reputation of Rezone and force us to file a claim in court on the basis of article 152 of the Civil code of the Russian Federation.

Sincerely,  
General Director
